

Legato Dining Room

Combining modern design aesthetics with versatile modular features, the Legato Dining Room offers the advantage of creating a personalized decoration that can adapt to every living space. The console design can be transformed into a larger and multi-functional model when desired thanks to its additional modules that allow creating different combinations, which can be used alone to adapt to small spaces. It responds to different usage and decoration needs with 3 different table alternatives: extendable, fixed and metal-legged.

 enza HOME

2 different color options as black and white

Table with extendable and non-extendable wooden legs options

Use of anthracite metal legs in the black colour and bronze metal legs in the white
